Longer-Lasting
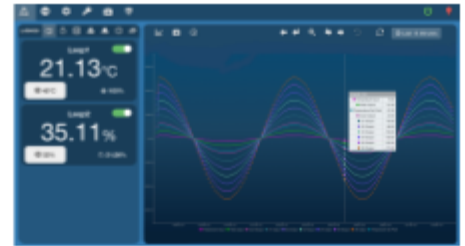

AES XCHANGE

OPERATION & DATA MANAGEMENT DASHBOARD

We get you there faster.

DASHBOARD

AES|XCHANGE has a dashboard view with remote access to control and view real-time readings of temperature & humidity, including a pause/resume feature for viewing current and historical data.

PROFILE BUILDER

Combined with the F4T, you can create and edit profiles using AES' drag-and-drop feature. Profiles can be saved directly to a server or controller or and moved between the two.

DATA LOGGING

- Live data graph
- Pause and resume live plotting
- Create custom data log reports from up to 8 years of archival data
- View and add entries to activity log
- Export data logs and activities

COMMUNICATION & CONTROL

- JSON API makes integration with other test platforms easy

SECURITY

- Manage user access with 3 authentication methods and 6 permission levels
- Set server interactions and scripting
