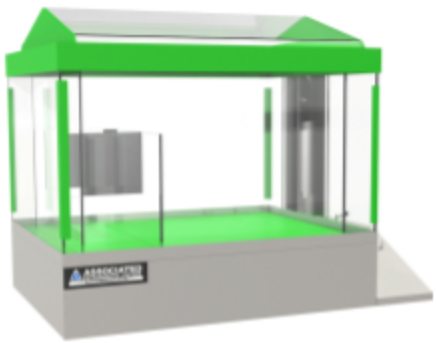
MX-SERIES



DESCRIPTION

MX Series benchtop chambers feature a 360° clear product viewing. The sturdy Lucite design is impervious to corrosion accommodating a wide variety of salt-fog and salt-spray test standards. MX chambers come standard with independent, manual-set, digital controllers for tower and workspace temperature management.

STANDARD FEATURES

- 360° product viewing
- Watlow PM EZ-Zone Controllers
- Atomizing Nozzle

Will accomodate:

- Modification of atomizing nozzle to allow salt atmosphere capability per MIL-STD-19500P
- Special filter for MIL-STD-202H and 810G (P/N 86264)
- Salt reservoir level control with 10 gallon storage tank (Auto Refill Tank)
- Salt fog collectors - 80 cm horizontal area (2 required)

- Automatic Refill System to extend operating hours
- Filter Assembly (MILSTD202H and 810G)
- Clean Cycle Valve (MIL-STD 883K)
- Additional Salt Fog Collectors (ASTM-B117)

AES|XCHANGE

For the latest in remote operation and data-log management, AES|XCHANGE enables you to monitor and control your chamber via browser-based dashboard. Working remotely at a desktop, laptop, or tablet you can view your live or historical chamber data using the visual dashboard. You also have the ability to connect programmatically via JSON API. Go to https://www.associatedenvironmentalsystems.com/xchange for details and product specifications.

MX-Series' Temperature 35°C (95°F) in Chamber

Model	Inside Dimensions (in)	Inside Dimensions (cm)	Overall Dimensions (in)	Overall Dimensions (cm)	Working Volume
