Longer-Lasting

FD-SERIES

We get you there faster.

DESCRIPTION

The FD Series is a floor-model chamber with three temperature range options. The Series features 11 working-volume configurations ranging from 1 cubic foot to 64 cubic feet. The exclusive, AES-designed inner-baffle, provides increased temperature stability and even air circulation.

STANDARD FEATURES

- Interior: All stainless steel type 304
- Exterior: Heavy gauge cold rolled steel with powder coat finish
- Multi-pane viewing window in door
- Internal light with external switch
- 3" access port and plug opposite door hinge
- Casters for mobility
- Watlow F4T programmable controller with AES|XCHANGE
- Adjustable digital high temperature safety

FD-SERIES

10 ft³ & Less

SPECIFICATIONS

OPTIONS

- Custom Port Sizes
- Adjustable Shelving
- LN₂/CO₂ Boost Cooling
- Air Dryer for Lower Humidity Range
- Adjustable High/Low Temperature Safety
- Noise Reduction Package
- Retro Legacy F4 Controller
- Programmable Chart Recorder

For the latest in remote operation and data management, AES|XCHANGE enables you to operate and program the controller at the chamber, your desktop, and remotely via laptop or tablet. A visual graph allows you to view live & historical test data. A drag-&-drop profile builder allows you to create, edit, save, and move between profiles. Onboard multi-year data logging collect and manage live & Historical data while chamber is operating. JSON API makes for easy communication. And access control allows for secure multi-user interaction.
